

Manhunt Underway for Slayer of 2 in Philadelphia

Philadelphia, March 14 —(UP)—A door-to-door search was under way today in the biggest manhunt in the city's history for a gunman who killed two state liquor store employees and wounded a third during a \$300 holdup.

A Real Relief For Stomach Distress, Acid Indigestion

Yes, this fact has been time-tested and proved by Doctors. Better days will be yours, too. So why wait when there is no need to continually swell up like a balloon and feel miserable after every meal.

An appetizing portion of SSS Tonic before meals does wonders for the stomach. This famous medicine contains no soda or other alkalis, which usually retard digestion. Instead, SSS Tonic with its highly potent ingredients works to tone-up the stomach so it may release its own digestive juice (hydrochloric acid) to break-up food for body use and tissue repair.

SSS Tonic has helped hundreds of thousands of people, without any organic trouble or focal infection, to really feel better, more vigorous, better able to enjoy living.

Take none less than this effectively-proved medicine to relieve your misery. Take SSS to tone-up your stomach, whet the appetite, build-up blood strength! Get SSS Tonic from any Drug Store today.

Atom-Powered Ships Believed Next Step

Washington, March 15 —(P)—Atom-powered ships and submarines may be only five or six years from reality.

Senator McMahon (D-Conn.) announced yesterday that the atomic energy commission is starting a huge new atomic project which may produce mobile atomic power plants within that time.

The chairman of the senate-house atomic energy committee gave reporters these facts after a meeting with Chairman David Lilienthal and other commission officials and engineers.

1. The multi-million dollar project will include new atomic reactors for stepped-up experiments in the use of peacetime atomic power and improvements in atomic weapons.

2. It will be located at one of three possible sites in a western state.

3. The project eventually will be the size of the Hanford, Wash., atomic development and will give work to "several thousand."

"At the end of this research," McMahon said, "We are hopeful we can demonstrate that mobile power plants not only are feasible but are here. There is reasonable expectancy the result will be accomplished."

It is known that Westinghouse Electric corporation has been working with commission scientists in trying to harness atomic power for propelling naval vessels. It is presumed Westinghouse will continue these experiments at the new project.

The commission has made no final decision, McMahon said, on where the project will be located. Idaho has been mentioned as a possibility.

Apparently in reference to the same project, commission Member Robert F. Bacher said in Boston last month that the AEC planned to build three new reactors—machines which produce atomic energy—in the west. Two of these, he said, would be used to explore the "breeding process," which produces atomic fuel faster than it is consumed.

Reverses in congress, his associates said, increase the possibility that he may stump again by train in an effort to build fires under congressmen opposing ad-

Junior Play to Be Held Twice Friday

Final plans are being made for the production of "Every Family Has One," the Junior Class play, on March 18 in two performances, afternoon and night.

With the Reardon household as the background, the three-act comedy promises an evening brimful of entertainment, with romance, social inspirations, and wit characterizing the plot.

The eternal triangle is presented through the roles of Marcia Reardon (Linda Foster), sought after by both Sherwin Parker (Jack Taylor) and Todd Galloway (Odis Keith).

Marcia's teenage brother Warry (Don Holt) is also bitten by the love bug, for he becomes enamored of Lily Reardon (Loretta James).

Those with social aspirations are Mrs. Parker (Adolphine Andrews) who is eager for the match. Their respective husbands, Mr. Parker (Melvin Thrash), big and blustering, and Mr. Reardon (John Andrews), easy-going, are a decided contrast as they cope with their wives' plans.

Twenty or wit is provided by Nana (Vivian Thrash), the grandmother, always contriving, Penelope (Arthadale Heffer), over precocious for years, and Essie, the maid, (Carolyn Holdridge), always expecting the worst.

The cast of the Junior Class play is living up to my expectations of them. "Every Family Has One" promises to be one of my favorite plays," Mrs. B. E. McMahon, director, remarked in a statement to the press.

The matinee on Friday will be at 1:30 and the night performance at 8:00. Admission will be 15, 25, and 40 cents.

3,700,000 Made Jobless by Coal Strike

By The Associated Press

The coal mine shutdown sent the nation's number of jobless to about 3,700,000 today. This is 500,000 more than last Friday.

The two-week mine holiday, starting today, added 471,000. Affected railroads laid off nearly 70,000. This pushed the total unemployed to 3,740,425.

Meanwhile, in other labor developments:

Railroad labor and management committees met separately in Chicago to study a presidential fact-finding board ruling on how to apply a five day work week.

The AFL brotherhood of railway and steamship clerks was ordered to picket railroad express terminals in New York, as a result of a contract dispute.

About 8,000 express agency employees were laid off Saturday after a four-day stoppage halted metropolitan express operations.

The nation's coal output was cut to a mere trickle. The United Mine Workers quit digging east of the Mississippi, on orders from John L. Lewis. The UMW chief said the voluntary layoffs is a memorial to dead and injured miners. The miners also are protesting appointment of David as federal mines bureau director.

Alarm Over New War Said Unfounded

Washington, March 14 —(P)—The military is alarmed at the public idea of the mass-killing capabilities of germ warfare, atomic bombs, guided missiles and other new weapons.

Over the week-end, it sought to explain the limitations and capabilities of the first of these. The national military establishment issued a formal statement, followed by a news conference, on biological warfare, a top military secret for the past three years. These views were expressed:

1. Biological warfare—the stealthy implanting of germs in people, animals or crops—is practicable, can be conducted on limited scale now, is a "most potentially important weapon."

2. Because this is true, the United States must be on guard against the use of germs in a war or "biological sabotage methods before a declaration of war has been made."

3. In the research field of bacterial war, the United States is even with or perhaps ahead of any other nations. Secret studies have been directed by committee "X" of the research and development board.

4. But—"There is no factual basis for extravagant claims of the existence of a 'biographical super-weapon' which can kill hundreds of millions of people."

Officials familiar with the policy to debunk fantastic public ideas about germ war, A-bombs and other weapons agreed that two basic national psychological situations prompted the decision to "educate" the public.

(A) To try to undo some of the American public's over-confidence in certain victory through reliance on only such weapons as the atomic bomb, germ warfare and guided missiles.

(B) To allay hysteria and panic among American populations should this country be attacked with any of these weapons. The effort now is to explain that these are not "absolute" weapons, but have definite limit actions in the number they can kill or the damage they can produce. There are means of minimizing their effect.

Bribery Tried on Him, Says Millionaire

New York, March 14. —(UP)—Clendenin Ryan, multi-millionaire civic reformer, charged today that he had been offered the post of ambassador to France to call off his campaign against what he calls the gangster-dominated regime of Mayor William F. O'Dwyer.

The burly foe of Tammany Hall said the offer had been relayed to him by a prominent public relations expert who said he had been instructed to make it by "an important ambassador." Ryan said he had demanded that the offer be "put in writing."

Tilting his homburg to a jaunty angle, Ryan left his big town house on East 70th street for city hall to pose another question to the mayor about underworld chief Frank Costello. Ryan charges that Costello is the real power behind the city's democratic machine.

After he gets through at City Hall Ryan said he would be pleased to appear before a grand jury investigating an alleged plot to tap the wires of city officials here and in Detroit and Chicago. Mayor O'Dwyer announced discovery of the plot early Saturday morning and said a "prominent New Yorker" had financed it for \$100,000.

Ryan accepted a subpoena last night.

When Ryan reached City Hall he was advised by one of O'Dwyer's aides that the mayor was away on an appointment.

"Is he lazy or yellow or what?" Ryan shouted. "I want to see him and he's never here. He's lazy."

At the same time, Rep. George Smathers (D-Fla.), a strong supporter of the administration, told reporters the president "is not disheartened or even discouraged" over developments so far.

Smathers had lunch with Mr. Truman Saturday after flying down to this naval submarine station with Chief Justice Vinson in the president's plane, the "Independence."

The senate's rejection of majority leader Lucas' motion to halt the anti-civil rights filibuster was a blow to many of the president's intimates.

Court Reduces Sentence of Frau Slayer

By The Associated Press

Wiesbaden, Germany, March 14 —(UP)—An American military government court of appeals today reduced to five years the 20-year sentence imposed on Mrs. Wilma Ybarbo, of Malden, Mass., for the fatal shooting of her husband, Sgt. John Ybarbo, last fall.

The appeal court ruled that Mrs. Ybarbo, 23, was not subject to military government law and set aside a 20-year term imposed under such law.

The court also reduced to five years another 20-year sentence imposed on Mrs. Ybarbo simultaneously under German law.

The court decided that the fatal shooting of Ybarbo, of Gollard, Tex., was the result of a "long and intolerable course of cruelty and ill-

treatment by the soldier-husband."

The original military government court that tried Mrs. Ybarbo ruled that she was subject to military government law because she was the wife of a member of the occupation forces.

Testimony during Mrs. Ybarbo's trial brought out a story of extreme license and much drinking in the Ybarbo home at Fritzlar, where Ybarbo was stationed. Testimony included a number of allusions to Ybarbo's intimacy with German girls.

The court also ruled that the five-year sentence which Mrs. Ybarbo must serve should run from last Sept. 21, when she was first imprisoned.

It expressed hope that the "sordid circumstances" concerning Ybarbo's trial is "not typical of the homes of soldiers in occupied Germany."

Syracuse University's basketball team of 1925-26 won 19 out of 20 contests.

DOROTHY DIX Poor Young Couple

Dear Miss Dix: I am engaged to a very wonderful girl and we are planning to be married very soon. My fiancée wishes to continue to work after we are married, but I seriously object to it. Of course, at present my salary is very small, but I feel that we can get along if we are willing to make sacrifices.

We wish above all to be truly happy and would appreciate any suggestions you could make about how to make our marriage a success. Both of us are very jealous.

Answer: Inasmuch as you are a poor young couple starting out on a very limited income, I think you are wrong in objecting to your wife keeping on with her job after you are married, as she wishes to do. Let her work until the babies come, which will automatically settle the question.

A girl, who has been used to coming her own salary and being financially independent, is very apt to be dissatisfied and disgruntled when she finds herself with nothing to do except to try to stretch her husband's pay envelope farther than it will go and to wander around the stores and look at things that she hasn't the money to buy.

No Reflection
Try to see things from your sweetheart's point of view and don't be old-fashioned enough to think that there is any reflection on you in your wife working after marriage.

But if you want your marriage to be a happy one, you must eliminate jealousy. That wrecks more homes than any other one thing, for when suspicion enters the door, peace and happiness fly out of the window. So you and your wife must make up your minds to trust each other, and to believe the best of each other, not to always be on the lookout, each expecting the other to play some dirty little trick. There is nothing really so insulting as jealousy.

They say there is no cure for jealousy. But I think that common sense is a never-failing remedy for it. If, when you feel an attack coming on and perceive that you are getting green-eyed, you will take a large dose of good old hard horse sense, you will find that it will restore you to sanity and serenity.

Dear Dorothy Dix: I am a girl 18 years old. The other night my date, whom I had only met on one other occasion, asked me to go to the movies. On our way home he suggested that, instead of seeing of a picture, we go to his apartment for a game of gin rummy. When I refused he was very indignant and said that he considered me a prude. What do you think about it?

Answer: I think you did the proper thing, and that the young man is either singularly unsophisticated or else a double-dyed villain to have proposed such a thing as visiting him in his rooms. Certainly any girl to whom a man extends such an invitation had a right to feel that she has been

Pardon Straightens Out Man Jailed, But Was Acquitted

Little Rock, March 15 —(AP) — A governor's pardon has straightened out a legal mix-up which sent an acquitted man to the penitentiary for 12 days.

Frank Clark, Arkadelphia, Negro, was the principal. He was convicted in Clark Circuit court of burglary and grand larceny and sentenced to two years imprisonment. While an appeal to the supreme court was pending, another man confessed, Clark was given a new trial and acquitted.

But through an oversight of the supreme court wasn't fully advised. The appeal was dismissed, an action which without further order had the effect of affirming his conviction. Later a mandate was issued ordering the Clark county sheriff to commit him to the penitentiary. Clark was delivered there March 2. But he was pardoned yesterday after the case had been reported to Governor McMath and an investigation showed the error.

New Effort to Settle Lion Oil Strike

El Dorado, March 15 —(AP) — The Lion oil company made a new offer early today in an effort to settle a wage dispute with approximately 420 production workers in its chemical plant.

The offer was announced by Morris Akin, Kilgore, Tex., a representative of the CIO workers union. The company confirmed one had been made. Neither Akin nor company representatives would disclose details.

Previously the company had offered an eight cent an hour wage increase in contrast to the union's request of 20 cents an hour for the employees.

Navy Offers 1-Year Hitches to Young Men

The Navy is accepting a number of 16-year-olds for one-year enlistments. Men enlisted in this category are subject to the same standards of discipline, discharge and promotion and will be given the same duty

assignments, with few exceptions, as are Regular Navy enlistees. They will receive the same recruit training as all USN personnel. A proportion, equal to the same proportion of Regular enlistees, will be sent to service schools for basic training and the ground work leading to promotion to third class petty officer.

Following their recruit and possibly school training, USNEVs will be assigned to general duty in the fleets for the remainder of their enlistments with the same proportion being assigned to aviation and submarine duties as are Regular Navy recruits.

USNEVs will not be assigned to duty in naval districts or bases States, but may be assigned to ships going to or operating in foreign waters.

For further information contact the Navy Recruiting Office, Room 202, Post Office Building, Texarkana, Arkansas, or see the Navy Recruiter at the Post Office in Hope on each Monday from 10:00 a.m. to 11:00 a.m.

Cart Has Three Dog-Power

In Rome, gasoline is so high-priced that this junk dealer switched to dog-powered transportation. To meet regulations, he had to fit a hand brake to his cart. It works fine—as long as no cats come along. (Photo by NEA-Acme staff correspondent Toni Caione.)

DPs Cheer Arrival in U. S.

New Orleans, March 14 — (UP) — The army Transport General Sturgis docked today with 843 displaced persons, who stood at the rails in a blinding rain and wildly cheered a brass band playing their new national anthem — "The Star Spangled Banner."

The DP's — wanderers in Europe for nearly a decade — received a royal welcome. A miniature of the Statue of Liberty was set up especially for them. Three congressmen and a big crowd waited on the Poland street wharf. It was doubtful if they understood much of the long welcoming ceremonies, but they all cheered and laughed as the congressmen, Mayor DeLoe, S. Morrison and other officials spoke.

Some of the DP's will be in their new American homes by nightfall. Everyone has a guaranteed home and job waiting for him. Sponsors for some of the DP's were waiting on the docks.

Many of the DP's are married couples with children; there was a total of 115 children under six years old aboard. Most of them are farmers from Poland, Lithuania, Latvia, Estonia, Czechoslovakia, Hungary and Yugoslavia.

The Germans carried them off to work in the third Reich, and after the war they preferred to stay in Germany and take their chances of returning to their homes and living under the Russians.

Of the 843 DP's, 251 will remain in Louisiana. The others will be dispersed throughout the South, West, Mid-west and North. They sailed for the United States two weeks ago from Bremerhaven, Germany.

The three congressmen who welcomed the DP's are Emmanuel Celler, (C.N. Y.); Frank L. Chelf, (D-Ky.), and Francis E. Walter, (D-Pa.).

They said one purpose of their visit was to determine by on-the-spot investigation what can be done to improve the present DP law. "We're getting around the brass hats and going right to the people themselves to see what is causing the red tape and delay," Chelf said.

Celler said one of the bottlenecks he wants to eliminate is a requirement that 40 per cent of the DP's admitted to the U. S. come from the Baltic states and that 30 per cent be farmers.

One of the earliest protests asking equal rights for women was published in 1789 in France when Olympe de Gouges showed there was no mention of women in the Revolutionists' "Declaration of the Rights of Man."

any day now," said Fuzzy. "And there's a greeting for her as soon as she opens the door. I tacked up a sign that says: 'To hell with the front porch.'"

Dispute May Be Settled in Oil Strike

El Dorado, March 14 — (AP) — Representatives of the CIO oil workers union and the Lion Oil company had hopes of settling their wage dispute today.

A federal mediator was to meet with officials of the two organizations (11 a. m.) in an attempt to end the dispute at the company's chemical plant.

The mediator, Wheeler of Little Rock, was called into the conferences after negotiations between the union and Lion Oil broke down last week.

The dispute involves about 420 production workers at the plant. The union asked for a 20 cents an hour wage increase; the company offered eight.

Other activities of Lion Oil are not involved in the dispute.

Vicki Evans Is Freed of Narcotic Charge

Los Angeles, March 14 — (AP) — Dancer Vicki Evans, cleared of the same marijuana charge that jailed movie hero Robert Mitchum, will put in a two-weeks appearance at a local burlesque house to earn carfare back home to Pittsburgh.

A spokesman for the Delasco theater said today the shapely blonde is penniless and can't go home to Pittsburgh — as she expressed desire to — just yet. He added that she will begin her stint Thursday.

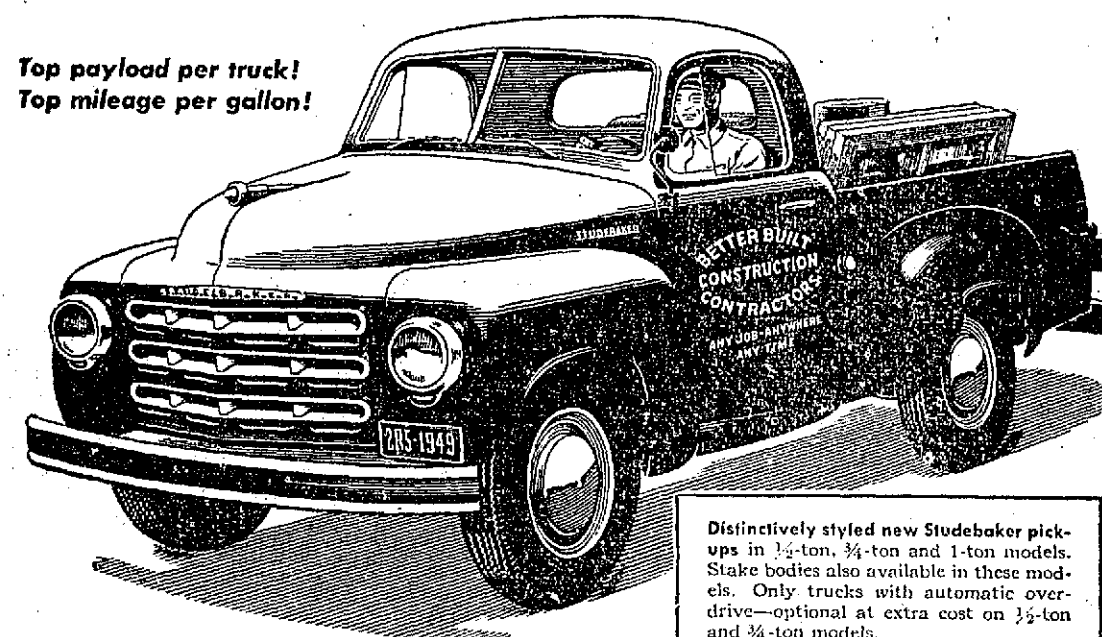

The 26-year-old Vicki was arrested last September with Mitchum and two others in a narcotics raid on a Laurel canyon "reefer party."

The others were convicted of conspiracy to possess marijuana but Vicki was freed Thursday by a superior court jury of the conspiracy charge.

The estimated annual loss, resulting from arthritic diseases in the U. S., is almost twice as great as the total 1947 budget for New York State.

Spring House Cleaning Can Run Into Work — Be Careful About Committing Yourself

By HAL BOYLE

New York, —(AP) —Planning to help the little woman with her spring housecleaning chores?

Well, if you decide to save money by doing the painting yourself, better think twice. That is the advice of Fuzzy Macaskill, who had the same idea, too.

Fuzzy is a good friend of mine, a kind, generous man with a heart of purest gold—and five big thumbs on each hand.

The other day he had a week's vacation coming. He decided it would be money in pocket if he spent the week repainting his home. With brush and can he attacked the kitchen and turned it a violent yellow.

"Perhaps another coat would help, dear," said his wife.

"So Fuzzy stayed up all night and slapped on another coat. Somehow the paint seemed to get yellower near the bottom of the can. His wife took a look in the morning and said:

"I don't feel well, dear. I think I'll go over to daughter's and stay with her for the rest of the week."

Fuzzy, so paint-spotted, he looked like a patch of dandelions, thought that would be fine. It would leave him free to assault the living room, bath and the front porch. The rest of the house wasn't in need of fresh paint.

At this point Fuzzy was still in love with his work. He had just finished daubing the living room when a neighbor called: "Your dog, Skippy, just ran up the street."

Fuzzy caught the dog after a two-block run. When he got Skippy

in the house, he tried to chase him upstairs. Skippy thought it was a great game. He ricocheted off the newly painted living room walls several times, then tripped on the cord of a big floor lamp. Down crashed the lamp—in ruins.

The bathroom came next. Fuzzy was tiring. He took naps between times as he painted the walls and ceiling. The result: Three tones of an original color which Fuzzy himself could only describe as "a matter of opinion."

Absent-mindedly Fuzzy sat down on a toilet seat which he had trimmed in black enamel. It hadn't dried.

Decided to surprise his wife by cleaning the venetian blinds in the living room. He decided it would be easier to wash the dirt off the wooden slats. So he dunked the blinds in a bathtub full of warm water and let them soak for a half hour.

"Those wooden slats weren't wood at all," said Fuzzy. "They were cardboard — cardboard that curled and shrank, too."

He sighed and went onto another task—giving the living room an enamel trim. The next day he found, sorrowfully, that one of the cans he had used was flat: paint instead of enamel.

Fuzzy gazed around. He had a kitchen that looked like it was suffering from jaundice; a three-tone bathroom, a streaky living room with a half flat and half enamel trim. He put away his paint brush in disgust.

"I am expecting my wife back

Legislature Looking to the Future

By BOB BROWN

Little Rock, March 14 — (UP)—The 57th general assembly took great strides toward the future development of Arkansas' higher educational system.

Funds were provided for the immediate future, construction funds were provided, and statewide and regional educational surveys were approved.

The legislature set up operating appropriations totaling nearly \$7,000,000 a year for the University of Arkansas and state supported colleges. This was 2 and one-quarter million dollars more per year than the schools spent during the past two years.

The money—\$4,649,000 of which was earmarked for salaries—will enable the schools to hold personnel they have and to obtain additional and better trained staff members. It is not all that was sought. But as President Lewis Webster Jones of the University of Arkansas said, "we can do a reasonably good job on what we received."

The largest amount went to the university. The Fayetteville school's operating budget totaled \$3,890,500 or \$1,305,000 more per year than during the current biennium. The teachers colleges at Conway and Arkadelphia received \$430,550 each. Colleges at Jonesboro, Magnolia, Monticello and Russellville were allocated \$374,200 each in operating funds. Arkansas State at Jonesboro will receive an additional \$58,150 if the revenue is available and A. and M. colleges at Monticello and Magnolia received supplemental appropriations from their own funds.

The general assembly, concerned with the need for additional facilities for Negro students, approved a budget of \$425,000 a year for A. M. and N. college at Pine Bluff. This was \$215,000 a year above the current budget. In

Says Unity Can Prevent Reds Starting War

Washington, March 14 — (AP)—Paul G. Hoffman told 12 Swedish labor leaders today that Russia will not start a war as long as "the free peoples of the world stand together."

The economic cooperation administrator made the statement in welcoming the Swedes here for a two-week tour of key industrial areas along the eastern seaboard. The Swedes are interested in seeing the United States industrial machine at work.

Hoffman made no mention of the North Atlantic alliance, but his remarks took on significance from the present stage of work on the pact. Sweden is the only Scandinavian nation to hold completely aloof from the negotiations and indicate a determination to stay that way.

Norway has come in. Denmark and Iceland are talking about it. Iceland's foreign minister has an engagement to talk with state department officials during the afternoon.

The foreign minister, Bjarni Benediktsson, arrived here last night. He told reporters in New York that his government had not yet decided to join the alliance and that it definitely would refuse to grant peacetime bases to any power.

The United States and the Western European nations lining up under the treaty are highly interested in providing permanent protection for North Atlantic sea and air lines. Nevertheless, it appeared that Iceland's views on the base question would be fully respected and that no pressure would be brought by the United States on this point.

Islandic Communist—he put their strength at 20 per cent of the vote—are opposing the pact in every way they can. He told a questioner that his country had received no counter proposals from Moscow.

The pattern for handling the issue of bases apparently was laid down Saturday in a conference between state department officials and Danish Foreign Minister Gustav Rasmussen. They discussed what Rasmussen described as the problem of Greenland.

Denmark owns Greenland and the United States has two airfields there. They were built as a result of arrangements made during the war, but not permanently for peacetime.

State department officials told Rasmussen, it was learned, that the North Atlantic treaty provides the framework in which a future solution of the base problem may be worked out. The strategic importance of Greenland in the North Atlantic Defense system recently was discussed in a general way but details were not gone into.

With the arrival of the Icelandic delegation, the lineup of eligible countries which have either declared their intention to join, or shown an active interest in entering the pact, was almost complete.

Little Johnny brought home his report card, and with it was a note from the teacher. "Dear Mrs. Jones," said the note. "Johnny is a bright boy, but he spends all his time with the girls. I'm trying to think up a way to cure him."

Mrs. Jones studied the note, then wrote the teacher as follows: "Dear Miss Smith: If you find a way to cure him, please let me know. I'm having the same trouble with his old man."

Baseball to Ask More Time in Suit

New York, March 15. — (UP) — Organized baseball, which must appear before the bar of justice in federal court today to answer the restraining demands of three suspended players, was expected to ask for a delay in the hearings. Lawyers for the national pastime were reported ready to ask Judge Edward A. Conner for more time in which to prepare their cases and one of the players' lawyers said he was determined to battle firmly against any delay at all in the proceedings.

Baseball has been ordered to show up in court at 10:30 a. m. (EST) and "show cause" to Judge Conner why players Max Lanier, Fred Martin and Danny Gardella should not be restored at once to active duty in the game.

All three players are under a five-year suspension meted out to them by baseball Commissioner A. B. Chandler for jumping to the minor leagues in 1946. Lanier and Martin, in one action, have asked for a court order for immediate reinstatement and Gardella has asked the same thing in another legal action.

John L. Flynn, attorney for Lanier and Martin, said he would object strenuously to any delay request from baseball.

"Martin will have to leave the country within a few days in order to earn a living if he is not reinstated," said Flynn. "So we're leaving baseball on a week of delays if we can help it."

Flynn asked the court last Tuesday for an order which would restore the two former St. Louis Cardinals pitchers to active duty immediately so they can get in shape for the coming season. The court has refused to grant the request.

Flynn's request and that time was up today.

Unheralded Teams Win in Tourney

New York, March 15. — (UP) — There didn't seem much left of the way of thrills and upsets that could happen in the National Invitation basketball tournament today after the most cock-eyed day of upheavals in the memory of the oldest Madison Square Garden patron.

Four unseeded and unheralded quintets made their way into the tournament semi-finals yesterday with victories over the four top-ranking teams in a fantastic day of surprises that shook the sport.

Inspired Loyola of Chicago, which was invited to the meet on a "rain check," battling from behind six times to oust Kentucky's too-seeded Wildcats, 67 to 56.

Bowling Green of Ohio, which had given up hope of even making the N. I. T. and disbanded a week ago, overcoming a 13-point first half deficit to smite second-seeded St. Louis university, the defending champion, 80 to 74.

San Francisco, another unseeded underdog in the betting, snatching a 64 to 63 victory out of the fire against third-ranked Utah on a basket by Frank Kuzara with only five seconds left on the clock.

And a valiant Bradley University team that was out-reached under the baskets by an average of at least three inches per man, storming back from a 10-point deficit in the last half to spend fourth-seeded Western Kentucky, 95 to 88, in a thriller that broke the tournament record for points scored in one game.

Each of the seven teams in the Southwest Conference during the past week-end, might become the greatest nation in the world, forever.

Bill Chissell of Baseball Fame Succumbs

Chicago, March 15. — (UP) — Chalmers (Bill) Chissell, former Chicago White Sox shortstop, died early today in Mercy hospital. He was 45.

Chissell, for whom the Sox once paid \$123,000 in cash and players, was hospitalized Jan. 16 after he was found destitute in the small apartment where he lived with his son, Gary, 13. He was suffering from malnutrition and a nerve condition in his legs which prevented him from walking.

He suffered a heart attack earlier this month, after hospital attendants said he had been cured of the leg condition and was placed in an oxygen tent where he stayed until his death.

Chissell was born in Perryville, Mo., Jan. 3, 1904. He broke into baseball as a third baseman at 14 with the independent Perryville club in the Iron Mountain League.

Oklahoma City Meets First Test Today

Oklahoma City, March 15. — (UP) — The Oklahoma City university Chiefs, lone seeded college team, meet their first test in today's eight-game session winding up second round play in the National A. U. basketball tournament.

Their first opposition comes from the Billings, Mont., stockmen.

Another seeded contender, the Hanes hosiery team of Winston-Salem, N. C., is down for its tourney debut against Luther college of Decorah, Iowa.

Luther whipped Fort Warren, Wyo., 72-49 yesterday during the day-long firing which saw six seeded teams safely past their initial foes.

Three of the six, including the defending champion Phillips Oilers of Bartlesville, Okla., and their chief title threats, the Oklahoma Sooners, romped through easily.

The Peoria Caterpillars had the closest call. In a game which saw the score tied 15 times and the lead change hands 27, they squeaked past the Warrensburg, Mo., Riglers, 71-65.

The difference was the Caterpillars' 6-10 center, George Kok, whose height helped him to 13 points.

Seven-foot Bob Kurland scored 19 points in playing less than half the game to lead the Oilers to a 75-47 trouncing of the Amarillo, Tex., plows.

Central Missouri college defeated Oklahoma Baptist university, 61-43.

Middle Distance Runners Meet at Oaklawn Today

Hot Springs, March 15. — (UP) — Eight well conditioned middle distance runners were to compete today in the mile and a furlong feature allowance event at Oaklawn Park.

Carded as the seventh race, the test brought together a group of horses most of which have accounted for at least one triumph at the current meeting.

Equal topweights of 118 pounds were assigned to Little Gernomo, recently claimed by W. Weston from W. B. Breezley for whom he had won a pair of victories and Mrs. E. Cloud's Hike. Others in the strong field were W. Snider's Joda's Joe, H. R. Finley's Jimmy K. T. Gray's Gypsy Lea, W. Swezey's True Philite, the latter also a two-time winner, W. Lewis' L. B. Giant and Mrs. R. C. Hodges' Dusty Days.

Three races a mile and a sixteenth and four six furlong sprints completed the card.

There was a double feature at Oaklawn yesterday. Bobbing Bob, six-year-old gelding, won the co-favored six furlong fourth race. Potomac was first in the other main event—the mile and sixteenth nightcap.
